

Ideal School holiday job: Test pilot in a bed factory.

We all know how teenagers love their beds. While we can't quite offer an opportunity to be a mattress tester, we can teach them how to construct a bed base from scratch at one of our modern workplaces over the Summer holidays . . . and they'll get well paid for it.

Activ has a commitment to supply its major customer with up to 170 bed bases every day. We need extra help to meet our orders over the Christmas-New Year period when many of our employees take their annual holidays.

Full training in all aspects of timber processing and component assembly will be given and all work is fully supervised.

It's a great opportunity to learn new skills and develop personal qualities while helping one of the state's leading community benefits organisations. Timber Services opportunities exist in Bentley, Bunbury, Geraldton and Albany.
